

I also thought you were
very open about us being
teenagers and how much we
are going through at our age. You
were very open about it
and I think some of us
teenagers who don't have
the best of parents to talk to
it about could use you every
now and then to talk to.

I have now learned
to respect our freedom we
have and to be kind, helpful,
and to act mature, and to
be a good leader. I thought
you were very respectful to
come out and be how you
were today. There is only
one in a million I know
that are very open how you are.
I think you were an
awesome enjoyment and I hope
you can come back again.

Dania
