

Dear Mr. Crudele,

I just want you to know that I thought the assembly was great. . . Your talk really got me thinking.

I always knew that I should say "NO" to drugs and alcohol, but the examples you gave of what happened when people didn't say "NO" really made me do a double take. I never want to be like one of those people at a party who let the girl lie in the bathtub.

I also started thinking about how valuable my life really is. I would never think about suicide, but if I did, I would remember your message and rethink.

It really meant a lot to me that you came to our school.

Yours Truly
Abbey Ceci
